

Litigations

Leone & Spadaro members are focused on any technical question rising from a litigation derived from patents, models, designs, copyrights or trademarks. In this connections, they are specialized in:

- drafting of opinions and expertises on the validity of existing patents and on possible infringement thereof from a third party;
- carrying out prior document searches for verifying the protection scope of an existing patent;
- monitoring competitor's IP activities;
- sending warning letters for preventing the violation of IP titles or the undue use thereof when they are lacking in certain validity requirements;
- carrying out technical expertises as technical experts before the IP Specialised Sections of the authorised Italian Courts.

Further, the firm Leone & Spadaro is associated with Lawyers who are expert in IP Law for representing clients in any judicial or non-judicial phase.
